

Get ready to fund your business

and implement
your digital
roadmap.

Get set for the future. **Now.**

Receive a grant to advance your business

A cash injection into your business could be the perfect way to continue your digital journey.

Receive a grant

Apply for a match-funded grant from the West of England Combined Authority to help you begin to implement your digital roadmap and continue your digital transformation. All grants will support you in the adoption of digital technologies and enable you to:

- Increase productivity and performance of a product
- Start the production of a new product or service
- Create new opportunities in your existing manufacturing processes
- Overcome operational challenges in the manufacturing process

What is the process?

After you have had your 1:1 Digital Acceleration Sessions, you can apply for a **50% match-funded grant** of up to **£20,000**. The grant can be used to purchase goods or services which will help to accelerate the adoption of digital technologies in your organisation. For example, Made Smarter West of England funds a **£5,000** project, your overall total project costs must be **£10,000** or more. The grants can be used for digital technology goods or services such as automation and data management solutions.

“

We're excited to help manufacturers in the west of England embrace digital technologies through the match-funded grant scheme.

”

Andrew Adeney
