This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a Combined Authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website www.grant-thornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at 10 April 2018

Financial Statements Audit

We have started planning for the 2017/18 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Authority's 2017/18 financial statements.

We commenced our interim audit in March 2018. Our interim fieldwork visit includes:

- Review of the Authority's control environment
- Understanding of financial systems
- Early work on emerging accounting issues
- Early substantive testing

The findings from our interim audit are summarised at page 6 to 9.

The statutory deadline for the issue of the 2017/18 opinion is 31 July 2018. We are discussing our plan and timetable with officers.

The final accounts audit is due to begin on the 25 June with findings reported to you in the Audit Findings Report by the deadline of July 2018.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

We made our initial risk assessment to determine our approach in January 2018 and reported this to you in our Audit Plan.

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in July 2018.

Other areas

Meetings

We met with the Interim Director of Investment and Corporate Services in January and April 2018 as part of our quarterly liaison meetings to discuss the Authority's strategic priorities and plans, emerging financial reporting developments and to ensure the audit process is smooth and effective.

We have met with the finance team and PWC (who have been appointed to develop and deliver the financial statements) to discuss the preparation of the accounts and emerging issues to consider in advance of the final accounts audit.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. A member of your finance team attended our financial Reporting Workshop held in February at our Bristol office. Our workshops are designed and delivered by our highly experienced public sector assurance team and help officers prepare for the financial statements audit by highlighting potential risk areas and providing an opportunity for discussion and questions.

Further details of the publications that may be of interest to the Authority are set out in our Sector Update section of this report.

Audit Deliverables

| 2017/18 Deliverables | Planned Date | Status |
|---|--------------|-------------|
| Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Authority's 2017-18 financial statements. | January 2018 | Complete |
| Interim Audit Findings We will report to you the findings from our interim audit within our Progress Report. | April 2018 | In Progress |
| Audit Findings Report The Audit Findings Report will be reported to the July Audit Committee. | July 2018 | Not yet due |
| Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion. | July 2018 | Not yet due |
| Annual Audit Letter This letter communicates the key issues arising from our work. | August 2018 | Not yet due |

Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

| | Work performed | Conclusions and recommendations |
|------------------------------|--|--|
| Internal audit | <p>We have completed a high level review of internal audit's overall arrangements. Our work has not identified any issues which we wish to bring to your attention.</p> | <p>Overall, we have concluded that the internal audit service provides an independent and satisfactory service to the Combined Authority and that internal audit work contributes to an effective internal control environment.</p> <p>At the time of reporting internal audit's work on the Combined Authority's key financial systems have not been finalised. We will review these reports when finalised and report any significant weaknesses impacting on our responsibilities in the Audit Findings Report.</p> |
| Entity level controls | <p>We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including:</p> <ul style="list-style-type: none"> • Communication and enforcement of integrity and ethical values • Commitment to competence • Participation by those charged with governance • Management's philosophy and operating style • Organisational structure • Assignment of authority and responsibility • Human resource policies and practices | <p>Our work has identified no material weaknesses which are likely to adversely impact on the Authority's financial statements.</p> <p>At the time of reporting we are still documenting our understanding of some elements of assignment of authority and responsibility.</p> |

| | Work performed | Conclusions and recommendations |
|--|--|--|
| Review of information technology controls | <p>We performed a high level review of the general IT control environment, as part of the overall review of the internal controls system.</p> <p>We have relied on some information from work undertaken as part of the audit of Bath and North East Somerset Council who host the Combined Authority's IT systems.</p> | <p>Our work has identified no material weaknesses which are likely to adversely impact on the Authority's financial statements.</p> <p>Our information system specialist will be undertaking a detailed review of the IT controls at Bath and North East Somerset Council (including controls applicable to the Combined Authority) which we shall report on in the Audit Findings Report.</p> |
| Walkthrough testing | <p>We have undertaken walkthrough tests of the Authority's controls operating in areas where we consider that there is a risk of material misstatement to the financial statements. These areas are Operating Expenditure and Employee Remuneration.</p> <p>We are waiting on further information in relation to Employee Remuneration to complete the walkthrough test for this risk area.</p> <p>Our work has not identified any issues which we wish to bring to your attention. Internal controls have been implemented by the Combined Authority in accordance with our documented understanding.</p> | <p>At the time of reporting our work has not identified any weaknesses which impact on our audit approach.</p> <p>We will report on the results of the Employee Remuneration walkthrough in the Audit Findings report.</p> |
| Journal entry controls | <p>We have reviewed the Authority's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Authority's control environment or financial statements.</p> | <p>During our final audit visit we will extract 'unusual' journals from the full 12 months (including year-end adjusting journals) and further review these.</p> |

| | Work performed | Conclusions and recommendations |
|------------------------------------|--|--|
| Shared service arrangements | <p>We have performed a high level review of the shared service arrangements with Bath and North East Somerset Council.</p> <p>Our work in this area has not identified any issues that we wish to bring to your attention.</p> | <p>Overall we have established that there are suitable arrangements in place for Bath and North East Somerset to supply financial and procurement services.</p> |
| Early substantive testing | <p>We have commenced substantive testing for months 1-10 on the following areas:</p> <ul style="list-style-type: none"> • Operating expenditure (including £9.6m of concessionary fares expenditure) • Grant expenditure • Employee remuneration • Property, plant and equipment additions | <p>Our audit work to date has not identified any significant issues for reporting.</p> <p>We will complete testing of months 11-12 transactions during our final visit in June 2018.</p> |
| Value for Money | <p>Our risk assessment regarding your arrangements to secure value for money identified the following VFM significant risks:</p> <ul style="list-style-type: none"> • Financial planning and development of Medium Term Financial Plan to support the Combined Authority's strategic objectives. • Measuring and monitoring of the performance and progress of the Combined Authority in achieving it's priorities and objectives. | <p>We made our initial risk assessment to determine our approach in January 2018 and reported this to you in our Audit Plan.</p> <p>We will report our detailed findings in our Audit Findings Report.</p> |

Sector Update

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, local government and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit and general purposes committee members, as well as any accounting and regulatory updates.

- **Insights from local government sector specialists**
- **Reports of interest**
- **Accounting and regulatory updates**

More information can be found on our dedicated public sector and local government sections on the Grant Thornton website

Public Sector Audit Appointments: Report on the results of auditors' work 2016/17

This is the third report on the results of auditors' work at local government bodies published by PSAA. It summarises the results of auditors' work at 497 principal bodies and 9,752 small bodies for 2016/17. The report covers the timeliness and quality of financial reporting, auditors' local value for money work, and the extent to which auditors used their statutory reporting powers.

The timeliness and quality of financial reporting for 2016/17, as reported by auditors, remained broadly consistent with the previous year for both principal and small bodies. Compared with 2015/16, the number of principal bodies that received an unqualified audit opinion by 31 July showed an encouraging increase. 83 principal bodies (17 per cent) received an unqualified opinion on their accounts by the end of July compared with 49 (10 per cent) for 2015/16. These bodies appear to be well positioned to meet the earlier statutory accounts publication timetable that will apply for 2017/18 accounts.

Less positively, the proportion of principal bodies where the auditor was unable to issue the opinion by 30 September increased compared to 2015/16. Auditors at 92 per cent of councils (331 out of 357) were able to issue the opinion on the accounts by 30 September 2017, compared to 96 per cent for the previous year. This is a disappointing development in the context of the challenging new reporting timetable from 2017/18. All police bodies, 29 out of 30 fire and rescue authorities and all other local government bodies received their audit opinions by 30 September 2017.

The number of qualified conclusions on value for money arrangements has remained relatively constant at 7 per cent (30 councils, 2 fire and rescue authorities and 1 other local government body) compared to 8 per cent for 2015/16. The most common reasons for auditors issuing non-standard conclusions on the 2016/17 accounts were:

- the impact of issues identified in the reports of statutory inspectorates;
- corporate governance issues; and
- financial sustainability.

The latest results of auditors' work on the financial year to 31 March 2017 show a solid position for the majority of principal local government bodies. Generally, high standards of financial reporting are being maintained despite the financial and service delivery challenges currently facing local government.

Changes to the prudential framework of capital finance

The Ministry of Housing Communities and Local Government has updated the Local Authority Investments Guidance and the Minimum Revenue following its publication of consultation responses on 2 February 2018.

A total of 213 consultation responses were received by the MHCLG by the 22 December 2017 deadline from across local government. Following consideration of the responses the Government has:

- made some technical changes to the Investments Guidance and MRP Guidance
- amended proposals relating to useful economic lives of assets
- implemented the Investments Guidance for 2018-19, but allowed flexibility on when the additional disclosure first need to be presented to full Council
- deferred implementation of MRP Guidance to 2019-20 apart from the guidance “Changing methods for calculating MRP”, which applies from 1 April 2018.

Key changes are noted below.

Statutory Guidance on Local Authority Investments

Transparency and democratic accountability – the revised guidance retains the requirement for an Investment Strategy to be prepared at least annually and introduces some additional disclosures to improve transparency. However, as the changes to the CIPFA Prudential Code include a new requirement for local authorities to prepare a Capital Strategy, the revised guidance allows the matters required to be disclosed in the Investment Strategy to be disclosed in the Capital Strategy.

Principle of contribution – the consultation sought views on the introduction of a new principle requiring local authorities to disclose the contribution that non-core investments make towards core functions. Authorities’ core objectives include ‘service delivery objectives and/or placemaking role.’ This clarification has been made to recognise the fact that local authorities have a key role in facilitating the long term regeneration and economic growth of their local areas and that they may want to hold long term investments to facilitate this.

Introduction of a concept of proportionality – the Government is concerned that some local authorities may become overly dependent on commercial income as a source of revenue for delivering statutory services. The consultation sought views on requiring local authorities to disclose their dependence on commercial income to deliver statutory services and the amount of borrowing that has been committed to generate that income. A majority of respondents supported the introduction of a concept of proportionality, recognising the importance that local authorities make decisions based on an understanding of the overall risk that they face.

Borrowing in advance of need – by bringing non-financial investments (held primarily or partially to generate a profit) within the scope of the Investments Guidance, the consultation proposals made it clear that borrowing to fund acquisition of non-financial assets solely to generate a profit is not prudential. The Investment Guidance requires local authorities who have borrowed in advance of need solely to generate a profit to explain why they have chosen to disregard statutory guidance. It is also important to note that nothing in the Investment Guidance or the Prudential Code overrides statute, and local authorities will still need to consider whether any novel transaction is lawful by reference to legislation.

Minimum Revenue Provision Guidance

The consultation sought views on proposals to update the guidance relating to MRP to ensure local authorities are making prudent provision for the repayment of debt.

Meaning of a charge to the revenue account – the Government does not believe that crediting the revenue account is either prudent or within the spirit of the approach set out in the relevant Regulations. For this reason a charge to the account should not be a negative charge.

Impact of changing methods of calculating MRP – the Government does not expect any local authority to recalculate MRP charged in prior years due to the proposed changes in methodology.

Introduction of a maximum economic life of assets – the consultation sought views on setting a maximum useful economic life of 50 years for freehold land and 40 years for other assets. The MRP Guidance will set a maximum life of 50 years, but allow local authorities to exceed this where the related debt is PFI debt with a longer term than 50 years, or where a local authority has an opinion from an appropriately qualified person that an operational asset will deliver benefits for more than 50 years.

Changes to capital finance framework

Challenge question:

Has your Chief Finance Officer briefed members on the impact of the changes to the prudential framework of capital finance?

CIPFA publications - The Prudential Code and Treasury Management Code

CIPFA have published an updated 'Prudential Code for Capital Finance in Local Authorities'. Key developments include the introduction of more contextual reporting through the requirement to produce a capital strategy along with streamlined indicators.

The framework established by the Prudential Code should support local strategic planning, local asset management planning and proper option appraisal. The objectives of the Prudential Code are to ensure, within this clear framework, that the capital investment plans of local authorities are affordable, prudent and sustainable.

Local authorities are required by regulation to have regard to the Prudential Code when carrying out their duties in England and Wales under Part 1 of the Local Government Act 2003, in Scotland under Part 7 of the Local Government in Scotland Act 2003, and in Northern Ireland under Part 1 of the Local Government Finance Act (Northern Ireland) 2011.

Since the Prudential Code was last updated in 2011, the landscape for public service delivery has changed significantly following the sustained period of reduced public spending and the developing localism agenda. It reflects the increasing diversity in the sector and new structures, whilst providing for streamlined reporting and indicators to encourage better understanding of local circumstances and improve decision making.

The introduction of a capital strategy allows individual local authorities to give greater weight to local circumstances and explain their approach to borrowing and investment. The Code is available in hard copy and online.

CIPFA have also published an updated Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes. The Code provides a framework for effective treasury management in public sector organisations.

The Code defines treasury management as follows:

The management of the organisation's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.

It is primarily designed for the use of local authorities (including police and crime commissioners and fire authorities), providers of social housing, higher and further education institutions, and the NHS. Local authorities in England, Scotland and Wales are required to 'have regard' to the Code.

Since the last edition of the TM Code was published in 2011, the landscape for public service delivery has changed significantly following the sustained period of reduced public spending and the developing localism agenda.

There are significant treasury management portfolios within the public services, for example, as at 31 March 2016, UK local authorities had outstanding borrowing of £88bn and investments of £32bn

The Code is available in hard copy and online.

CIPFA Publication

Challenge question:

Has your Chief Finance Officer briefed members on the impact of the changes to the prudential code?

Overview of the General Data Protection Regulation (GDPR)

What is it?

The GDPR is the most significant development in data protection for 20 years. It introduces new rights for individuals and new obligations for public and private sector organisations.

What's next?

Many public sector organisations have already developed strategic plans to implement the GDPR, which require policy, operational, governance and technology changes to ensure compliance by 25th May 2018.

How will this affect you?

- ✓ All organisations that process personal data will be affected by the GDPR.
- ✓ The definition of 'personal data' has been clarified to include any data that can identify a living individual, either directly or indirectly. Various unique personal identifiers (including online cookies and IP addresses) will fall within the scope of personal data

What organisations need to do by May 2018

- ✓ Local government organisations need to be able to provide evidence of completion of their GDPR work to internal and external stakeholders, to internal audit and to regulators.
- ✓ New policies and procedures need to be fully signed off and operational.

Organisation Accountability

- Organisations must document their assurance procedures, and make them available to regulators
- Some organisations need to designate a Data Protection Officer, who has expert knowledge of data protection law

Notifications and Rights

- Organisations must notify significant data breaches to regulators within 72 hours
- Organisations must explain to individuals what their rights over their personal information are and how it is being processed and protected

Claims and Fines

- For the most serious data breaches, privacy regulators can impose penalties of up to €20 million on public sector organisations,
- Individuals and representative organisations can claim compensation for infringements of data protection law

Questions for your organisation:

- Can your organisation erase personal data effectively?
- Have you appointed a Data Protection Officer if required to have one?
- How will your organisation ensure citizens know how their data is being used and whether it's being shared with other organisations?

Commercial Healthcheck: commercial investments and governance

Our latest healthcheck report was launched at CIPFA's Income Generation Summit in November. It is part of our 'The Income Spectrum' series, giving leaders of local government and public services insights into why and how local authorities are changing their approach to commercialisation, some of the related governance and risk management issues, and the latest innovation trends with case studies ranging from Angus and Luton to Oldham and Stirling.

The research shows that councils need to do more than simply adhere to the drafted rules to ensure an approach to commercialisation that balances outcomes and risks. The report therefore also includes a healthcheck diagnostic tool designed to give local government leaders extra comfort and confidence that they are pursuing a suitably balanced approach

Governance of commercial commitments is key to building confidence in the path to financial sustainability. The CIPFA code is the sector's primary rule book for treasury management and is expected to place a stronger emphasis on how councils will balance security, liquidity and return.

Key findings from the report include:

- While property has tended to be the focus, it is just one of a number of areas of activity. In the past year, borrowing includes £4.8 billion on bonds and commercial paper, and investment includes £7 billion in inter-authority lending (Investment in property for councils is a growing trend – a third of councils have done so since 2010, spending more than £2.4 billion between them, but this is not the only major area of investment activity)
- More entrepreneurial councils are adopting innovative approaches such as place-based market offerings, working together locally to add social value and cross-boundary franchising
- For many councils, investing in commercial assets is key to developing anchor institutions that contribute to place – ranging from airports, business parks and forestry to GP surgeries and cinemas
- A 'beyond compliance' approach to governance of commercial activities is required by progressive councils wanting to do more with less

[Click on the report cover to download and read more](#)

Grant Thornton Publication

Challenge question:

Is your Authority considering the risks and governance issues for its commercialisation agenda?

Through a local lens: SOLACE summit 2017

The Industrial Strategy matters to places but places also matter to the Industrial Strategy.

This was a strong message coming out of discussions at the recent SOLACE (Society of Local Authority Chief Executives) summit where we facilitated 100 local authority CEOs and senior leaders to consider how the Industrial Strategy could be brought to life at a local level.

For some time now we have engaged in an ongoing and inclusive dialogue with communities and business, local authority and third sector leaders from across the country, to share aspirations, ideas and insight focused on building a vibrant economy for the UK. These discussions have helped to form the basis of our Vibrant Economy 'Blueprint for the UK' and they will go on to inform our recommendations to Government around a place-based approach to the Industrial Strategy.

This year's summit provided us with an invaluable opportunity to take this dialogue further.

We focused on the integral role local government will have in delivering the Industrial Strategy. Delegates applied a local lens to the national growth agenda, encouraging them to consider what strategies and approaches were already working in their place; what they could be doing more of to support growth in their area, and how they could steer the Industrial Strategy agenda from a local level.

Using the appreciative inquiry technique, we discussed the following questions:

What role would leaders and local institutions be playing if they were delivering positive outcomes from the industrial strategy?

Looking ahead and considering our diverse local authority agendas, the industrial strategy and surrounding policy landscape what aspects might work well for everyone?

You can see and hear what delegates thought on our [website](#)
