WEST OF ENGLAND GREEN BUSINESS GRANTS

Paneltech Industries Ltd.

Variable Speed Extract & LED Lighting

Project Cost: £29,182
Grant Awarded: £11,672

Based in Clevedon, Paneltech carries out the design, manufacture and installation of bespoke fitted furniture for a variety of sectors including residential, education, healthcare and retail. They have used grant funding to install a new demand-responsive variable speed drive to their dust extract system, as well as replace their existing fluorescent lighting with LED fittings in the manufacturing areas. These changes help minimise electricity when other equipment is not in use, while also improving the working environment for staff.

THE IMPACT

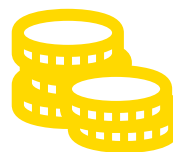

18%

Reduction
in energy
use

9.3tCO₂e

Annual reduction
in business
carbon emissions

£2,580

Annual saving on
energy bills

The Low Carbon Challenge Fund is a £1.7m grant scheme from the European Regional Development Fund (ERDF) and managed by the West of England Combined Authority. The West of England Green Business Grants Scheme offers cashback grants of between £1,000 and £15,000 (up to 40% of eligible costs) to improve the energy efficiency of buildings and/or business operations of small/medium enterprises in the West of England.
